Harrahs Entertainment

Contract Type
Lighting

Contract Amount
\$6,000,000

Electrical Contractor
FSG

CEASER'S ATLANTIC CITY

Nationwide

FSG performed comprehensive lighting audits and designs for multiple Caesar's properties nationwide

CHALLENGE

The lights shine bright at casinos, and the casinos of Caesar's Entertainment are no exception. To make sure that their lighting was the best and brightest, Caesar's contracted Facility Solutions Group to undertake audits and design work for several Caesar's properties in the United States.

SOLUTION

FSG performed comprehensive lighting audits and designs for multiple Caesar's properties nationwide. Once the designs had been accepted by property management, FSG performed lighting upgrades for such signature casinos as Caesar's, Bally's, Claridge, Showboat, Horseshoe, and Harrah's. These upgrades included interior and exterior spaces, parking garages, building facades, decorative lighting, guest room lighting, and back of house areas. The upgrades were based around the use of LED technology, and also featured the installation of intelligent lighting controls.
