

ALBUQUERQUE JOURNAL

Albuquerque, New Mexico

Owner

Albuquerque Journal

Contract Type

Lighting

Contract Amount

\$223,000.00

Electrical Contractor

FSG Electric

LIGHTING CASE STUDY

FSG provided complete LED lighting upgrade services for this project.

CHALLENGE

When the Albuquerque Journal sought to modernize its operations with a new printing press, FSG was brought in to handle the electrical installation. The newspaper aimed to reduce its environmental footprint by minimizing paper consumption, and FSG's expertise in electrical solutions ensured a seamless transition to the new system.

SOLUTION

Over the course of several months, FSG's team navigated the unique challenges of working in a fast-paced printing environment. Despite the demanding conditions, FSG's technicians efficiently installed the necessary electrical infrastructure, keeping the project on schedule and minimizing disruptions to daily operations.

RESULT

The result was a fully integrated, energy-efficient lighting and electrical system that supports the newspaper's upgraded printing operations. With this successful installation, the Albuquerque Journal can now operate more sustainably while continuing to deliver news to New Mexico readers.
