LIGHTING CASE STUDY

FSG Delivers Turn-Key Lighting for GM Cruise Deployment Center

CHALLENGE

As GM Cruise pioneers the future of autonomous vehicles, its New York Deployment Center needed a lighting solution that balanced design, functionality, and budget. Without an established budget for lighting design services, Jones Lang LaSalle turned to FSG for a complete turn-key approach.

SOLUTION

Partnering with TPG Architecture and Jones Lang LaSalle, FSG developed a tailored lighting plan that met the project's aesthetic and operational needs while staying within budget. From design to installation, FSG ensured a seamless process, providing expertise and efficiency at every step.

RESULT

By delivering a well-executed, high-quality lighting solution, FSG helped create an environment that supports innovation and technological advancement, reinforcing GM Cruise's position at the forefront of the autonomous vehicle industry.
